The people of Ouachita Parish have awakened to the need of better facilities for the library and during the past year a number of improvements have been made through the cooperation of local groups. Of course the most pressing need of the library is a new building for Monroe, which we hope to get within the next few years. It has been fun to work with the library and to feel responsible in some measure for its remarkable growth and expansion and I

hope that each year the library can grow in usefulness to the community. The figures below give a statistical picture of the state of the library at different periods of its history.

Year	Income	Book Collection	Circulation
